STEPPING UP INITIATIVE RESOLUTION

“Stepping Up Initiative to Reduce the Number of People with Mental Illnesses in Jails”

WHEREAS, counties routinely provide treatment services to the estimated 2 million people with serious mental illnesses booked into jail each year; and

WHEREAS, prevalence rates of serious mental illnesses in jails are three to six times higher than for the general population; and

WHEREAS, almost three-quarters of adults with serious mental illnesses in jails have co-occurring substance use disorders; and

WHEREAS, adults with mental illnesses tend to stay longer in jail and upon release are at a higher risk of recidivism than people without these disorders; and

WHEREAS, county jails like Jones County, Iowa, spend two to three times more on adults with mental illnesses that require interventions compared to those without these treatment needs; and

WHEREAS, without the appropriate treatment and services, people with mental illnesses continue to cycle through the criminal justice system, often resulting in tragic outcomes for these individuals and their families; and

WHEREAS, all counties take pride in their responsibility to protect and enhance the health, welfare and safety of its residents in efficient and cost-effective ways; and

WHEREAS, through *Stepping Up*, the National Association of Counties, the Council of State Governments Justice Center and the American Psychiatric Association Foundation are encouraging public, private and nonprofit partners to reduce the number of people with mental illnesses in jails;

NOW, THEREFORE, BE IT RESOLVED, that the members of the Jones County Board of Supervisors, do hereby sign on to the Call to Action to reduce the number of people with mental illnesses in our county jail, commit to sharing lessons learned with other counties in our state and across the country to support a national initiative and encourage all county officials, employees and residents to participate in *Stepping Up*. We resolve to utilize the comprehensive resources available through *Stepping Up* to:

- Convene or draw on a diverse team of leaders and decision makers from multiple agencies committed to safely reducing the number of people with mental illnesses in jails.
- Collect and review prevalence numbers and assess individuals' needs to better identify adults entering jails with mental illnesses and their recidivism risk, and use that baseline information to guide decision making at the system, program, and case levels.
- Examine treatment and service capacity to determine which programs and services are available in the county for people with mental illnesses and co-occurring substance use disorders, and identify state and local policy and funding barriers to minimizing contact with the justice system and providing treatment and supports in the community.
- Develop a plan with measurable outcomes that draws on the jail assessment and prevalence data and the examination of available treatment and service capacity, while considering identified barriers.
- Implement research-based approaches that advance the plan.
- Create a process to track progress using data and information systems, and to report on successes. [2019-037]

AND, the same is hereby acknowledged on the part of Jones County, Iowa,

AND, the Chairman and County Auditor are hereby directed to certify this Resolution of Approval and affix the same to the plat as provided by law. In approving the plat, Jones County is expressly not accepting any responsibility for the roadways set forth on said plat.

The Auditor reminded the Board of the October 2, 2019 workshop on property tax reform being presented by the Iowa State Association of Counties.

Bobby Krumm, BlueCut Trailblazers, informed the Board that an ATV/UTV route map for Jones County is currently in production and expected to be available to the public in the near future.

The Engineer met with the Board to discuss the location of a tree commonly known as the "Hula Hoop Tree" west of Amber along E23 County Home Rd. The County Attorney and Sheriff were present for the discussion. Four citizens were present to offer comments. The Engineer reported that his staff had determined that approximately 49% of the tree trunk was in the county road right of way. The Board directed the Engineer to prepare a resolution for a future meeting to reduce the speed limit in a limited area of E23 County Home Rd. east and west of Amber to 35 miles per hour, after confirming with the Iowa Department of Transportation whether the action could be taken without a formal speed study being conducted.

The Engineer also provided updates on the Shaw Rd. project, 15th St. in Greenfield Township, and installation of the new fueling facility at the Anamosa maintenance shop; discussed ongoing meetings with property owners along 75th Ave. near Cascade regarding possible work on the road; and damages to the barricade gate at Ely's Stone Bridge.

The Attorney and Auditor met with the Board to present a bid from Jeff and JoAnn Hinz to acquire unused road right of way adjacent to their property near Old Dubuque Rd., Anamosa, and reviewed the next steps to transfer ownership of the property to the Hinz'. The Attorney noted that by submitting the bid for the property the notification period for the Hinz' had effectively expired, and that Jones County is the only other adjacent property owner. The Auditor also recommended that the Board consider future action to transfer the remaining unused right of way in that area to the City of Anamosa as the remaining portion lies within the corporate boundaries of the city.

Moved by Oswald seconded by Eaken to waive the sixty-day notice provisions of Iowa Code Section 306.23 as they apply to Jones County's ownership of unused road right of way in Parcel 98-80 in Section 1 of Fairview Township. All aye. Motion carried.

Possible action to accept the bid offered by Jeff and JoAnn Hinz will be placed on the September 24, 2019 agenda.

Ed Bertch, EB Solutions, met with the Board to review the provisions of a contract he proposed to provide required wetland mitigation monitoring services associated with the Wapsipinicon Trail project. The Auditor reported that it appeared there were sufficient Trail funds available to fund the monitoring services contract, and that the Conservation Director had offered to cover the costs in the Conservation budget if Trail funds were insufficient.

Moved by Zirkelbach seconded by Oswald to approve a contract with EB Solutions, Inc. in the amount of \$9,360 to provide wetland mitigation monitoring, and required reports, for the Wapsipinicon Trail project in the amount of \$9,360 (\$2,080 initial monitoring plus \$1,820 per year for four years for annual monitoring services). All aye. Motion carried. [2019-108]
