

Youth Groups:

The Jones County Conservation Board staff would like to invite you to consider your meeting place and the many outdoor areas of Jones County as rewarding locations to learn about our natural environment. You will find our diverse ecosystems and wildlife offer many educational opportunities.

"If you fail to know
"Nature" you will never
miss it when it is gone."

The primary purpose of the Jones County Nature Center at Central Park is to provide environmental education. Programs for the public, schools, and other groups are held regularly at the center. Central Park is located in the center of Jones County and is within a 15-30 minute drive from all communities in the county.

Attention, Attention!!
